Watching/witching
Collect correct connect
Fuck the burden
Fuck the warden
Pull out the bundy
Out with The Fundy
Same same what's his name
I see your face
And it is really shining
I see your face
And you are truly dining
Feral space
Pharaoh space
I hear this tune
I wish that it would vanish
It is too melodic
It should disappear
Why are you the one voice
That never disappears
Never written rights
Never rhythm rites
Your face looks microwaved
That is not a compliment
You left your phone unattended
That was a serious mistake
Your face is looking marinated
Please sail safely sir.
Operatic schoolteacher
Keep lecturing me
I hear bass voices
Where there probably aren't any
Hooch it hatch it
Hatch it hooch it
Meet me in the basement
If you want to dance
A lux a lax
